

HIGH EFFICIENCY GAS HEATING

This course is designed to cover the very foundation of gas fired appliances, the nature of how they operate and diagnostic procedures that can be used to determine any problems. This course will also get into the reasoning behind Combustion analysis and how it is incorporated into diagnostics and early warning signs commonly found in gas fired appliances.

Instructor: Cory Paeper

Date: Tuesday, March 6

Time: 1:00 PM—5:00 PM

Cost: \$120.00
